BAND STORY

"

Musically - taught myself guitar at 17. Was in a band for friends (The Plastic Snails (later The Suicidal Snails)). Played one gig. Had lots of fun. When band broke up, continued to record as solo artist.

Got back into recording turn of 2009 with the use of Kristal and seeing a whole new world of digital recording possibilities open up before my eyes. Enjoying it even more now. Learnt so much and made some good on line friends.

Personally - living in Essex (UK) with girlfriend, stepdaughter, and her cousin, 4 cats, 1 dog, 1 rabbit, 4 goldfish. Sometimes feel like I live in a zoo. lol

LATEST NEWS

IDIOT of the month

Cheers Dave (Way2lon) for conducting interview with me for the TTM artist profile of the month. It was fun to do and hope its a good read for everyone. (Did i drop enough namechecks? lol).

Feeling quite inspired at the mo. Done a collab with Smurf for Kae Aug, got one on the go with Karman and working with Toadman on another. So ive gone into Collab overdrive. If anyone else wishes to collab with me, drop me a line. Id be happy to join forces as collabs give a new excitement to the writing music process.
